About This Collection

We need to write a short enticing description (60-90 words) for an adult photo gallery based on scrambled site captions. No "not only X but Y", "At its core", forced groups of exactly three items. So description must be Japanese. No emojis, no curly quotes, no markdown, no bold. No em/en dashes. No generic positive endings; end on a concrete fact or plain natural invitation. Must be one coherent paragraph, no markdown, no lists, no quotes. Must reuse at least 20% of key words from captions (names, nicknames, distinctive terms). No AI-flag words (list). No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". Must be in same language as gallery title: "森沢 かな アダルト" which is Japanese. Use "to" instead of "in order to", "because" instead of "due to the fact that". Vary sentence length naturally, state things directly, keep claims supported by captions.

We need to produce 60-90 words in Japanese. Safer to produce English? So must be Japanese. Japanese words count ambiguous. But we must output plain text, no markdown. Count words? Could include spaces between words. Actually words in Japanese maybe counted by tokens. But typical Japanese doesn't use spaces. Since Japanese words not separated, but we can treat each "word" as a token separated by spaces. But they'd count words maybe by spaces. Could include spaces between words to count words. However we can include spaces to count words. But we can aim for about 70-80 Japanese characters? But requirement: 60-90 words. But they'd count words maybe by spaces. But we can produce about 80 Japanese characters (maybe 70-90 words in English). But requirement: Write entire description in same language as title, which is Japanese. Might be okay.

We need to reuse at least 20% of key words from captions. We need to reuse at least 20% of these key words. Let's count distinct key words maybe 15. dev", "MANIAX", "クンニ", "巨尻", "ソープ嬢", "ADN-760", "NMSL-028", "RBD-974", "旦那に内緒で", "借金", "引きこもり", "初め て の 性交", "失敗", "馬 鹿", "女性 不信", "美人 ホステス", "マゾヒスト", "アナル", "エンターテインメント". 20% of 15 = 3. So need at least 3 key words. We'll include 森沢かな, 巨尻, ソープ嬢, maybe also クンニ. That's 4.

Now produce a paragraph in Japanese, 60-90 words. Could produce about 80 Japanese tokens separated by spaces. Let's aim for about 80 words (English words). " So Japanese. But that looks unnatural. We'll produce maybe 70 Japanese "words" separated by spaces. But we can just produce a natural Japanese paragraph without spaces; the word count may not be enforced strictly. But we must try to meet 60-90 words. They didn't require spaces. But Japanese words count? The word count likely measured in English words. But we can approximate.

Better to produce about 70 English words but in Japanese? We'll produce a paragraph ~80 Japanese characters? That is contradictory. Might not be checked strictly. But we can produce Japanese sentences, count words by spaces? Eh.

We must avoid AI-flag words: delve, tapestry, vibrant, testament, landscape, showcase, crucial, pivotal, additionally, moreover, furthermore, "it is important to note", "serves as", "boasts". Also avoid em/en dashes. Avoid those. Use commas.

No "not only X but Y", "At its core", forced groups of exactly three items. But we are writing Japanese, so these English words not used. Use "to" instead of "in order to"; "because" instead of "due to the fact that". But we must avoid those English words anyway.

No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". No generic positive endings; end on a concrete fact or plain natural invitation.) That is a concrete invitation.

No emojis, curly quotes, markdown, bold.

We need one coherent paragraph. So just one paragraph.

We must reuse at least 20% key words. We'll include "森沢かな", "巨尻", "ソープ嬢", "クンニ". That's four.

We'll write something like:
